# **Continuity of Care Advisory Committee May 2012**

**Roles and Relationships  
Scope of Committee & Assignment of  
Members**

# Roles and Relationships

---

- Committee is tasked with providing input on key questions that pertain to the implementation & sustainability of the Exchange (non-voting body that do not make recommendations to the Exchange Board)
- Committee members will review data from consultants and policy options provided by State Agency staff
- Committee members will be asked to provide experiential support in response to the consultant data and policy options
- State Agency staff will incorporate Advisory Committee feedback into final policy decisions for the Exchange

# COC Committee Scope of Work

---

- Existing models review
  - Review current market strategies to support continuity of care
- Financial Impact
  - What is the financial impact of implementing continuity of care provisions?
- Implementation Considerations
  - What mechanisms should be implemented across the system to reduce redundancy in care?
